Analysis of liquids in the food industry by J. R. Swift	175
Artificial kidney — a review by V. K. Mathur and S. Sitharamayya	112
Behaviour of tall-form spray dryers with nozzle atomisers by R. B. Keey and Q. T. Pham	516
Bipolar electrochemical pump cell by R. E. W. Jansson and R. J. Marshall	769
Chemical engineering in the dairy industry by R. S. Jebson	450
Choosing the right instruments by T. P. Flanagan	178
Coking in a fired heater by W. G. Perera and K. Rafique	107
COMPAID — a system for project management by J. Madden	46
Continuous vacuum band dryer by G. S. G. Beveridge and C. W. Lyne	513
Development of industrial filtration by H. K. Suttle	675
Developments in capital cost estimating by Dolphin Development Company	39
Drying and calcining ammonium diuranate by D. A. Lee	522
Economic feasibility studies for chemical plant by D. G. Furzey	33
Effects of hydrogen on steel by A. Cracknell	92
Efficient drying using heat pumps by D. L. Hodgett	510
Energy conservation in industrial drying by D. Reay	507
Energy recovery from the incineration of municipal refuse by A. Marx	601
Engineers — the forgotten profession? by I. A. Glover	42
Experience and progress with a computer-coupled bio-reactor by R. Spruytenburg et al	447
Filtration of fine particles and vapours from gases by R. G. Dorman and F. A. P. Maggs	671
Filtration with granular beds by J. L. Cleasby	663
Filtration research in UK universities by R. J. Wakeman	683
Flixborough — a combustion specialist's view by K. Gugan	341
Flixborough — some additional lessons by J. I. Cox	353
Location of chemical plant by O. W. Roskill	29
Management of innovation by J. Robbins	48
Manager's influence on financial performance by F. Whiteley	36
Materials and energy resources by P. M. C. Lacey	587
Mechanical cheesemaking by R. Scott	444
Metallurgical examination of the 8-inch line by A. H. Cottrell and P. R. Swann	266
Metallurgy of the 8-inch line in the context of Flixborough by J. G. Ball	275
Nitrogen cycles in a polluted sea area by H. Nishimura	760

Technology of yeast production by J. W. Holloway and S. Burrows	435
Tidal power by T. L. Shaw	592
Total distributed control by J. M. Watson	167
UK energy resources — some key issues by C. M. Buckley and J. H. Chesshire	589
Unconfined vapour-cloud explosions by G. Munday	278
Wave power by I. Glendenning and B. M. Count	595
What happens when loss prevention fails? by H. D. Taylor	263

SUBJECT INDEX

	Page
Analysis of liquids in food industry	175
Bioreactor, computer-coupled	447
Cell, electrochemical, bipolar	769
Cheesemaking, mechanical	444
Chemical plant, economic feasibility studies	33
Chemical plant, location of	29
Chemical plant, noise from	115
Chemical plant, use of plastics in fabrication	95
Coatings, protective	99
Coatings, protective, rubber, corrosion-resistant	97
Computer control of bioreactor	447
Computer, use in process control	171
Cost estimating, capital	39
Dairy industry, chemical engineering in	450
Dryer, spray, with nozzle atomiser	516
Dryer, vacuum band, continuous	513
Drying, of ammonium diuranate	522
Drying, industrial, energy conservation in	507
Drying, using heat pumps	510
Education, praise of sandwich course	359
Effluents, gaseous, removal of contaminants	754
Electrochemical cell, bipolar, pump	769
Energy conservation in industrial drying	507
Energy recovery from incineration of municipal refuse	601
Energy resources, tidal power	592
Energy resources, wave power	595
Energy resources, UK	589
Energy resources and materials	587
Engineering profession	42
Environment, and process design	751
Explosions, vapour-cloud, uncontined	278
Filter cakes, dewatered, residual saturation of	668
Filtration of fine particles and vapour from gases	671
Filtration with granular beds	663
Filtration, industrial	675
Filtration, research in UK universities	683
Flixborough, technical lessons	266, 275, 278, 341, 353
Food industry, analysis of liquids	175
Food industry, mechanical cheesemaking	444
Heater, fired, coking in	107
Hydrogen, effect on steel	92
Innovation, managerial	48
Instrumentation, correct choice of	178
Insurance when loss prevention fails	587
Kidney, artificial	112
Loss prevention, failure of	263
Loss prevention, philosophy of	257
Management, influence on financial performance	36
Management, project, system COMPAID	46
Management of innovation	48
Metallurgical examination of 8-inch line	266, 275
Oil conservation	757
Paint protection, corrosion-resistant	99
Plastics, use in chemical plant fabrication	95
Pollution, air, reduction of	754
Pollution, nitrogen cycles in polluted sea	760
Process control, total distributed	167
Process control, use of computer	171
Process design and the environment	751
Protein, single-cell, production from n-paraffins	440
Rubber linings, corrosion-resistant	97
Safety, nuclear, technological problems	265
Safety, reliability engineering applied to new projects	105
Safety, strategic approach	260
Steel, effects of hydrogen	92
Yeast production, technology of	435
